LAND VALUES

Despite the Brexit-related uncertainties, the farmland market has proven more resilient than many might have predicted as **pasture land prices in the region increased by up to 25% last year.**

Investors have played an increasing role in the farmland market as they tend to be attracted to tangible assets as they see them as a safe haven for their capital. Land remains in considerable demand for capital investment for many non-farming reasons, including development potential, privacy, tax reasons, or amenity.

In the immediate future it is anticipated that **land prices will continue to rise**, supported by a lack of supply (*Strutt & Parker*).

HOUSE PRICES

The land is situated in an extremely affluent area. **House prices in Feckenham are 55% above the county average and 80% above the regional average** (*Zoopla*).

These premium house prices reflect the desirability of the area as a place to live and own property – including land.

PLANNING

The land is designated as Green Belt and is situated within a Special Wildlife Site. Any development would be subject to the appropriate planning permission.
